YA experience a drop in attendance. Poor attendance may be due to work commitment and travel distant to the meeting place. Rebekah Yang, Dorcus Lam and Joseph Tan have opened their home for YA meeting.

YA consist of 3 groups:

1. new family with kids
2. working adults

They need to find a suitable place and bible study syllabus to cater to these 3 groups. Joseph Tan will reevaluate the need with the young adults to find the best solutions. Ps Bobby suggest to recruit more young adults from our church

**SOCIAL MEDICAL**

- Bro Peter Chow shares the challenges he faces in this ministry
- Not enough volunteers' doctors ever since Dr Khoo left. Dr Mae Lynn express interest to help but he was unsure since she is a specialist
- The availability of the community hall in Cheras Ria is inconsistence and even though it is available it is difficult to obtain the key. The management is not well managed and due to that the social medical service was called off.
- Due to the inconsistency in opening, people are unsure thus attendance is not encouraging.

There was suggestion to operate a mobile unit but may face trouble with authorities. Bro Peter proposes to move the social medical operation to HCBC new wing since the place is conducive and available. Since they have all former patient contact in a WhatsApp's group, they can inform them when social medical service is in operation.

He hopes to have more publicity to recruit doctors.

They have written to the health ministry with regard to the operations of the Social Medical service and since there are no rules governing helping community they will not interfered.
